

# Medicine Hat College Encana - Power Engineering Technology Centre

Address ([Map](#)): 299 College Dr, Medicine Hat, Alberta T1A3Y6 Canada  
Sector: Educational Delivery Type: Design-Bid-Build  
MCW Office: Edmonton Status: Complete  
Sub Categories: College & University

Mechanical:  
**MCW Hemisphere Ltd.**

Electrical:  
**MCW Hemisphere Ltd.**

Architect:  
**Workun Garrick**

Contractor:  
**Wahl Construction**

Final Project Cost:  
**\$7 Million**

## Project Description

The Encana - Medicine Hat College Power Engineering Technology Centre was built as an addition to the main campus and officially opened in October 2009. This building is being used to train students in the operations management of mechanical systems in office building and high rise settings. The large curtain wall windows give both the public and the students a glimpse of the extensive mechanical systems inside which, combined with the lighting accents, becomes a striking illumination feature at night. MCW Hemisphere assumed the role of Prime Consultant providing mechanical and electrical engineering services for this project.
